HUMOR IN THE SENATE DEBATE

Many Pleasanties Injected Into the Discussion.

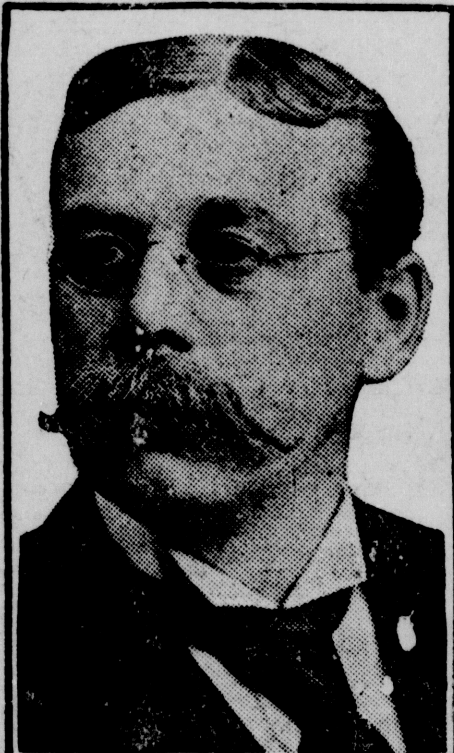

DOLLIVER THE CENTRAL FIGURE

Iowa Senator Offers Several Amendments to the Woolen Schedule of the Tariff Bill and Announces His Intention of Presenting a Number of Others—Mr. Carter Delivers an Interesting Lecture on the Woolen Industry.

Washington, June 9.—There was a great deal of good humor and many pleasanties injected into the debate on the woolen schedule in the senate, Mr. Dolliver being the central figure. He offered several amendments and announced his intention of presenting a number of others, appealing to the Republican members to vote with him because he said these amendments would justify the attitude of the Republican party in advocating a protective tariff.

Mr. Smoot, assisted to a large extent by Mr. Warren, who is considered an expert on the woolen industry, defended the finance committee's recommendations with regard to that schedule. The various amendments proposed to the house bill by the finance committee of the senate are intended to restore the Dingley provisions of the woolen schedule, which, in some instances, provide higher duties than the Payne bill as passed by the house.

One of the interesting features of the day was a lecture on the woolen industry from beginning to end by Mr. Carter, who brought forth a large box filled with samples of various grades of wool. To the senators who gathered about him he explained each step in the manufacture of woolen

SENATOR WARREN.

goods from the raising of the sheep to the making of the garment. He familiarized the members of the senate with the uses of shoddy, waste, nolls, tops and the various grades of wool.

Mr. Dolliver proposed an amendment which would assess the duties on wools on an ad valorem basis, according to the shrinkage of the wool. He became involved in an argument with Mr. Smoot as to the feasibility of such an arrangement of the woolen duties, the latter contending that it would be impossible to collect the duties on that basis because the American manufacturers want their wool in the grease and hardly any two of them use the same methods of scouring the wool.

Much amusement was afforded when Mr. Dolliver and Mr. Warren became involved in a colloquy during which they stood within a few feet of each other and each endeavored to convince the other of the soundness of his opinion regarding the advisability of assessing the woolen duty on the value of the wool in the cloth. Mr. Dolliver said he would propose amendments which would carry out this proposition, but Mr. Warren, in order to illustrate the small proportion of the entire cost of a woolen garment which is dutiable, asked Mr. Dolliver to examine the suit which he was wearing.

Mr. Dolliver said it appeared to him to be a very good suit, whereupon Mr. Warren explained that the cloth in the suit cost only \$4, while the making and the trimmings cost \$42, showing that the duty on the \$4 worth of cloth was trifling compared with the entire cost of the suit.

The usual night session was omitted.

BITTER QUARREL IN COURT

Opposing Attorneys in Calhoun Case Taunt Each Other.

San Francisco, June 9.—A bitter quarrel involving Judge Lawlor and virtually all of the attorneys engaged in the bribery trial of Patrick Calhoun, president of the United Railroads, enlivened a day otherwise devoted to routine testimony.

Assistant District Attorney Heney started the dispute by charging that Earl Rogers, an attorney for the defense, had been smiling at members of the jury. There was an angry response from John J. Barrett of the defense, who declared the prosecution had unnecessarily prolonged the trial by the introduction of trivial matters.

For his remarks Barrett was sternly reprimanded by Judge Lawlor, who told the attorney that if he made another such reference he would send him to jail.

"If the court intends to punish me," Barrett answered, "then what about the man sitting over here who has repeatedly been permitted to insult the court, the jury and the attorneys?"

The opposing attorneys then taunted each other about "crooked work."

WILL ASK FOR CONTINUANCE

State Not Ready for Trial of Dr. Haldane Cleminson.

Chicago, June 9.—The state has not completed its gathering of evidence against Dr. Haldane Cleminson, who is being held on the charge of having murdered his wife, Mrs. Nora Jane Cleminson, and will ask for a continuance when the case comes up in Judge Bruggemeyer's court. The state will ask a continuance on the grounds that the report of the coroner as to poisons found in Mrs. Cleminson's body is not ready.

The attorneys for the defense will fight against a continuance and will insist upon the immediate presentation of evidence by the state.

BIBLE IS THE WORD OF GOD

General Synod of the Lutheran Church So Declares.

Richmond, Ind., June 9.—Probably the most important action taken by the general synod of the Lutheran church of the United States in session here was when a thesis presented by Dr. L. S. Keyser of Canal Dover, O., bearing on the differences in confession basis between the general synod and the general council was approved and adopted by a rising vote. In this way the synod defended its position on this important matter. The resolution is in part as follows:

"Resolved, That inasmuch as the Augsburg confession in the original generic confession of the Lutheran church was accepted by Luther and his coadjutors and subscribed to by all Lutheran bodies the world over, we therefore deem it an adequate and sufficient standard of Lutheran doctrine.

"Resolved, That we herewith declare even adherence to the statement the Bible is the word of God and reject the error implied in the statement the Bible contains the word of God."

THREE ARRESTS ARE MADE

Prisoners Charged With Being Implicated in Shooting of Callahan.

Jackson, Ky., June 9.—Three arrests have been made of men charged with being implicated in the shooting from ambush of former Sheriff Ed Callahan. Those under arrest are Govan Smith, leader of the Smith faction, his brother, Ellisha Smith, and Levi Johnson.

The arrests followed the work of a sheriff's posse which started bloodhounds from the home of the former feud leader at Crockettville, this county, on the trail of the supposed bushwhackers. From the scene of the shooting the dogs went to the home of Govan Smith. It was here that the arrest of the two Smith brothers and Johnson were made. The three accused men were brought to Jackson. The posse is continuing its search for others who are suspected of being implicated in the shooting.

Callahan is still alive and if he is able to be removed it is planned to take him to Lexington soon to be operated upon.

Postmasters to Meet at Toledo.

Savannah, Ga., June 9.—President Henry Blun, Jr., of the National Association of Postmasters, has announced that the annual convention of the organization would be held at Toledo on Aug. 19 to 21.

Chicagoan Injured in Paris.

Paris, June 9.—Maurice Heckels, who is described as a Chicago lawyer, was badly hurt in a collision between a taxicab and a street car.

BLACK HAND'S HEADQUARTERS

Reported to Have Been Located at Marion, O.

SEVERAL ARRESTS ARE MADE

Alleged Italian Blackmailers Taken Into Custody in Marion, Dennison and Columbus—Gang Said to Have Worked Exclusively Upon Italians in This Country—Sent Money to Confederates in Italy.

Cincinnati, June 9.—In several arrests made in Columbus, Marion and Dennison, O., local federal inspectors and detectives who worked in conjunction with them in the case believe they have unearthed the biggest and best organized branch of the black hand in this country, Marion, O., being probably the head of the organization. Chief Postoffice Inspector Charles Holmes of this city, who is in charge of the work which has resulted in the arrests so far made, is authority for the statement that evidence has been secured showing that the gang operated from Marion and with lines reaching into a number of big cities of the country, have fleeced different persons in this and other states out of thousands of dollars in the past few months by the application of black hand methods.

The arrests so far made are Sam Lima and Joe Rizzo at Marion; Antonio Vicario at Columbus; and A. Marfis at Dennison. Inspector Holmes said he was expecting word from Belmonte, O., of two more arrests, and these two he said would be equally as important and probably more so than those already made.

Inspector Holmes says that the gang which conducted its operations from Marion was composed of Italians and worked exclusively upon their countrymen. He has obtained evidence that as late as two weeks ago they sent from Marion, O., postoffice money orders aggregating \$1,900 to confederates in Italy, this being the division of blackmail funds in one case. Many such bits of evidence, it is claimed, are in possession of the inspectors.

Discussing the case, Inspector Holmes said:

"The proof we have found against the Marion gang convinces us that they have worked their game successfully on many Italians, principally well-to-do Sicilians. We have not found where they went after a single American. They meant business when they made demands for money. If their demands were ignored they resorted to the bomb either to bring their victims to time or to avenge a persistent refusal to submit to blackmail."

MASS OF CORRESPONDENCE

Proves Payments by Many Italians to Black Hand Gang.

Columbus, O., June 9.—Evidence secured in black hand raids at Marion and Dennison, O., includes a mass of correspondence proving payments by many Italians of property. Several books were captured which are expected to show the distribution of money and the source of its receipt. Two full mail sacks were brought to the Columbus postoffice from Marion and Dennison.

Among those who refused demands for money were John and Charles Amicon, Columbus commission merchants. The sum of \$10,000 was sought from each. In January, Mrs. John Amicon, according to the officers, found in the rear of the house a dynamite bomb and fuse, wrapped with one of the letters demanding payment from her husband. Several Columbus Italians are believed to have paid \$1,000 each.

Two Italian murders in Marion are generally charged to the gang, but there has been no proof. The Mafia also is charged with assassinations in Bellefontaine and Dennison. Proof that they were the work of the black hand may be found in the uninterpreted Italian letters now in the hands of the federal authorities.

Forest Fire Situation Alarming.

Frederickton, N. B., June 9.—Advices received here from Keswick indicate that the forest fire situation in that vicinity is steadily becoming more alarming. Bird settlement is in great danger and the twelve or fifteen families there are prepared to flee. Every available man for miles around is engaged in fighting the flames.

Former Congressman Tarsney Dead.

Detroit, June 9.—Timothy Tarsney, a former congressman from this state and prominent state Democrat, died at his home here.

HER DIVORCE WAS SECURED BY FRAUD

Allegation Made by Grace B. Guggenheim.

Chicago, June 9.—Judge Honore ordered William Guggenheim, capitalist of New York and director of the so-called smelter trust, and Grace B. Guggenheim to show cause why their divorce secured in this city in 1901 should not be set aside. Edward F. Dunne, former mayor of this city, who issued the divorce while a judge in the circuit court, represented the complainant—Grace B. Guggenheim—and appeared in court with five affidavits alleging that the divorce was secured by fraud.

Mr. Dunne declared that the decree was fraudulent as neither party was a legal resident of Illinois at the time and that misrepresentations had been made to Mrs. Guggenheim to get her to sue for the divorce. The complainant also makes the averment that Mr. Guggenheim and her supposed attorney, Louis Werner of New York, conspired to practice a fraud on the court. She further states that she was given alimony of \$150,000, of which her attorney secured \$12,500.

Mrs. Guggenheim further avers that it had been represented to her that the defendant was "the weakest and least important member of the Guggenheim family," while in fact he is abetted of the seven brothers and the chief organizer and business head of the great combination of mining and smelting interests owned by the family. She also adds that his personal wealth is probably more than \$3,500,000.

The complainant has been married three times and has figured in an equal number of divorce suits. Both remarried after the 1901 divorce—Mr. Guggenheim marrying Almee Lillian Steinberger. The complainant's first husband was William C. Herbert, a naval officer who secured a divorce on the grounds of desertion. Guggenheim married her Nov. 30, 1900. Less than four months later they were divorced. The complainant's next husband was Jules Roger Wahl, who obtained an annulment of the contract in France on the grounds that the Chicago decree was invalid.

ARREST FIFTEEN LEADERS

Deputy Sheriffs Capture Men Who Led Riot at Boomer Mines.

Charleston, W. Va., June 9.—After exchanging more than 100 shots with striking foreigners at the Boomer mines, a posse of deputy sheriffs succeeded in arresting fifteen leaders of Monday's riot when parading under a red flag, the strikers fired on car repairers and Mine Superintendent Gillies. Following the arrest nearly 400 strikers secured arms and took refuge in the hills. During the afternoon many shots were exchanged, but no one was injured. With darkness the firing stopped.

Severe Earthquake in Chile.

Santiago, Chile, June 9.—According to advice received here the earthquake Tuesday at Copiapo was very severe. Many houses were destroyed, but there were few casualties owing to the fact that the buildings at that place are very low. For a time the residents of the place were panic stricken.

SHRINERS AT LOUISVILLE

Hold Their Thirty-fifth Annual Session in Kentucky City.

Louisville, Ky., June 9.—Politics was an important feature of the day's proceedings in the thirty-fifth annual session of the Nobles of the Mystic Shrine and the following important questions remain to be settled:

Will the imperial divan—the cabinet of the order—be "pegged up," as is the custom, one officer succeeding another and leaving a vacancy of imperial outer guard, or will this custom be changed?

Who will be elected imperial outer guard?

Will New Orleans, Toledo or Atlantic City win the right to entertain the shrine in 1910?

The imperial council amid the spectacular features of the day managed to meet and hold an important session at which an unusual thing was done. This was to make James Wellington Boyle, potentate of Ziyira temple of Utica, N. Y., member Emeritus Ad Vitam, on honor which has been conferred on but four other men in the history of the shrine.

A committee was also appointed by Imperial Potentate Edwin I. Alderman of Cedar Rapids, Ia., to report on a choice of a city for 1910.

Drills in the First regiment armory by various patrols provided an excellent quality of entertainment for the thousands who massed into the great building.

Despite an early rain and the promise of more, the most remarkable pageant in the history of Shrinedom was held. All the crack patrols which have made the order famous were in line under lights and colors.

BEAUTIFUL FLOWER PARADE

Feature of the Confederate Reunion at Memphis.

Memphis, Tenn., June 9.—From songs of war, from tap of drum and shrill of fife, from martial uniforms and accoutrements of battle, the scene in Memphis changed at the Confederate reunion to dainty femininity in Paris gown and flowers.

The beautiful flower parade was a delightful transition. Over a hundred stylish equipages, decorated with the most exquisite blossoms of the Southland and carrying the flower and beauty of Southern womanhood, passed slowly through the city streets for nearly three hours. Every imaginable design was carried out. Interspersed in the line were twenty bands of music.

The fight for the next reunion has reached an interesting stage. Nashville and Chattanooga, Tenn.; Mobile, Ala., and Houston, Tex., are the main contenders. The heat was intense, a score of prostrations, two of them fatal, resulting.

KILLS WOMAN AND HIMSELF

Indiana Man Commits Murder and Suicide in Chicago.

Chicago, June 9.—A man, supposedly Jacob Groskoff, twenty-five years old, of Rensselaer, Ind., shot and killed Mrs. Sadie Eisner, thirty-three years old, and immediately after committed suicide here. Mrs. Eisner, who was estranged from her husband two years ago, lived at the same hotel with Groskoff and moved from there in order to avoid his attentions.

Groskoff followed Mrs. Eisner to her new residence and when she refused to talk to him he shot her. She died an hour later at a hospital. Immediately after shooting Mrs. Eisner, Groskoff walked to the front of the house and shot himself in the head twice, causing instant death.

TOWN IS FLOODED BY A CLOUDBURST

Several People Are Drowned at Underwood, S. D.

Rapid City, S. D., June 9.—It is reported that several people were drowned at Underwood, S. D., after the town had been flooded by a cloudburst.

Great damage was done to property. On account of numerous washouts this section is almost cut off from railroad communication.

The Northwestern railroad tracks at Whitehead are flooded.

CARRIED OFF BAND STAND

Jersey City Robbers Perpetrate a Nervy Deed.

Jersey City, N. J., June 9.—The palm for pure, unalloyed and unadulterated "nerve" will have to be awarded to the merry band of burgling and housebreaking individuals who descended upon Mary Benson park in the Italian quarter of Jersey City and carried off the band stand which for many years had constituted its chief ornament.

The deliberateness with which the work of demolition and later of transportation by truck was accomplished entirely disarmed suspicion and the stand had disappeared several hours before the authorities could bring themselves to a realization of what had happened.

The structure was fifteen feet square, with an ornate balustrade steps and ornamented roof of metal.

An Indo-Chinese Venice.

The royal palaces of Bangkok form a city in themselves. They consist of several hundred individual palaces, surrounded by magnificent gardens and pagodas. Bangkok is really a city of waters. It is an Indo-Chinese Venice. More people live in floating homes on the Menam, "the Nile of Siam," and on many canals than in permanent buildings.

TEST RIDE FOR RACE HORSE.

Trip From New York to Chicago and
Return to Show Endurance.

Starting from the Herald building in
New York at 10 o'clock the other morn-
ing, mounted on the six-year-old thor-
oughbred Esteban, H. H. Weatherly
set out on an interesting ride of 2,000
miles to the Chicago Record-Herald
building in Chicago and return in a
test of endurance, designed to demon-
strate the fallacy of the statement that
"the modern race horse off the track
is good for nothing but food for the
hounds."

A journey of this distance has never
been accomplished, if it has been at-
tempted, with a twentieth century
thoroughbred in the United States, or
any other, so far as known, and his
progress will be followed eagerly by
officials of the war department, the
Jockey club and all interested in try-
ing out the high mettled racer under
conditions such as a cavalry horse
would have to endure.

Esteban is a typical twentieth cen-
tury racer, and if he can endure the
test to which Mr. Weatherly purposes
to put him the latter day thoroughbred
will be vindicated. He is light chest-
nut or sorrel in color, sixteen hands
high, rather long of leg and light of
bone and at a casual glance does not
give the impression of being a rugged
horse. But Mr. Weatherly says he is
a big feeder, always ready for his din-
ner and always ready for a gallop.

Esteban was bred at the famous
Ranococas stud established by Pierre
Lorillard at Jobstown, N. J., and was
got by Locobatchie, a noted race horse
and a son of Onondaga and Sophronia
by Ten Broeck. The dam of Esteban
was Flash, by Ventilator, grandam
Molly Walton, by Mortemer, out of
Florence (dam of Hindoo and grand-
dam of Firenze), by Lexington. Este-
ban was trained and raced as a two-
year-old and as a three-year-old ran
creditably up to one mile.

No schedule was laid out for the
2,000 mile trip to Chicago and return.
but the rider of the horse expects to
make it in forty days, thus doing an
average of fifty miles a day.

Mr. Weatherly is an experienced
long distance rider. He was born in
England, served in the British army
with the Tenth Hussars in 1882 and
from 1886 to 1891 was corporal and
sergeant in the northwest mounted
police force of Canada.

Mr. Weatherly intends to feed, wa-
ter and care for Esteban himself. He
will ride about eight hours a day and
will take advantage of soft earth roads
whenever possible in order to keep his
horse from becoming footsore. When
macadam turnpikes are encountered
he will take to the grass at the side of
the road to avoid the hard footing.

Mr. Weatherly is about forty-five
years of age. His weight is 132 pounds.

HER GREETING.

In Spite of the Old Lady's Care She
Managed to Blunder.

The daughters of a certain charming
old lady in Washington are frequently
much upset by the odd social blunders
of their parent, whose failings in this
respect are, however, more than offset
by her kindness of manner.

Among the callers to the house of
this family was a Mrs. Farrell, who,
after some years of widowhood, again
married, this time becoming the wife
of a Mr. Meggs.

"If you love us, mother," said one
of the girls when the newly married

lady's card had been brought in one
afternoon shortly after the completion
of the honeymoon, "don't make the
mistake of calling her Mrs. Farrell."

The mother solemnly promised to
commit no faux pas and as she went
downstairs was heard to repeat to
herself, "Meggs—Meggs—Meggs—not
Farrell!"

At the conclusion of the call the old
lady was met at the head of the stairs
by the daughter, who at once observ-
ed an ominous expression of despond-
ency on the old lady's face.

"Oh, mother," she exclaimed, "surely
you didn't!"

"No, Clara," replied the mother em-
phatically, "I didn't. I was so careful
to call her Mrs. Meggs all the time."

"Well, what's the trouble, then?"

"Oh, dear!" murmured the kindly old
lady, as she sank into a chair. "It
was awful of me, I know! When I
greeted her I said: 'I am glad to see
you, Mrs. Meggs. How is Mr. Far-
rell?'"—Harper's Weekly.

STORIES OF LORIMER.

Experience of the New Illinois Senator
With a Farmer.

Representative William Lorimer of
Chicago, Republican, who was recently
elected United States senator from Illi-
nois to succeed Albert J. Hopkins, is
a great walker. One day when he
was a congressman he was out for a
tramp along the conduit road leading
from Washington. He sat down to
rest after going a few miles.

"Want a lift, mister?" asked a good
natured Maryland farmer driving that
way.

"Thank you," responded Mr. Lorimer.
"I will avail myself of your kind
offer."

The two rode in silence for awhile.
Presently the teamster asked, "Profes-
sional man?"

"Yes," answered Lorimer, who was
thinking of a bill he had pending be-
fore the house.

After another long pause the farmer
observed, "Say, you ain't a lawyer or
you'd be talking, you ain't a doctor
'cause you got no satchel, and you
shore ain't a preacher from the looks
of you. What is your profession, any-
how?"

"I am a politician," replied Lorimer.
The Marylander gave a snort of dis-
gust. "Politics ain't no profession;
politics is a disorder."

Years ago when Mr. Lorimer was
working in the glue department of the
Armour company, at Chicago, the elder
Armour came down to the packing
house one morning at half past 6
o'clock. He walked through the glue
department and found Lorimer the
only man there.

"Do you get down at this time every
morning?" asked Mr. Armour.

"Yes, sir," Lorimer replied, "when
you are in the city, sir."

It wasn't long before Lorimer had a
raise in pay.

CURE YOUR KIDNEYS

**Do Not Endanger Life When a Brain-
erd Citizen Shows You
the Cure**

Why will people continue to suffer
the agonies of kidney complaint, back-
ache, urinary disorders, lameness, head-
ache, languor, why allow themselves
to become chronic invalids, when a cer-
tain cure is offered them?

Doan's Kidney Pills is the remedy to
use, because it gives to the kidneys the
help they need to perform their work.

If you have any, even one, of the
symptoms of kidney diseases, cure
yourself now, before diabetes, dropsy
or Bright's disease set in. Read this
Brainerd testimony:

Mrs. Harry Langslow, living at 409
S. Ninth St., Brainerd, Minn., says:
"My husband's work is rather hard on
his kidneys and as a result he was
greatly bothered by a lameness and a
dull aching through his loins. Some
years ago he learned of the merits of
Doan's Kidney Pills and procured a box
from H. P. Dunn's drug store. They
soon corrected the existing disorders
and since then Mr. Langslow has been
a firm believer in the merits of this
remedy. He uses Doan's Kidney Pills
off and on and they serve to keep his
kidneys in a healthy condition."

JANITORS TO HAVE VACATION

Board of Education Decides to Grant Them One Week Each Without Loss of Pay

TORNADO INSURANCE ORDERED

Usual Grist of Bills Allowed and Other Routine Business was Transacted

The board of education met in adjourned session Tuesday evening, having adjourned from the previous evening because of the commencement exercises. At roll call all the members were present except Messrs. Ilse and Molsted, both of whom came in later in the evening.

A communication was read from residents of the First and Fifth wards regarding the removal of wood and debris from lots owned by the board at the corner of Sixth and Oak streets. The communication was on motion laid on the table.

The principal's report of the schools for the year showed a total of 2,044 pupils belonging during the year, 1,002 being boys and 1,042 being girls. Eighty-three were gained by transfer during the year and 74 were lost. There were 1,984 belonging to the school at the end of the year, of which 1,904 were in regular attendance.

The committee on buildings and grounds reported recommending the deduction of \$1.50 from the salary of Andrew B. Andersoh, janitor at the Lincoln school, because of the fact that he had been subpoenaed before the grand jury and had been absent from duty, Mrs. Anderson doing the work, according to the statement of a member, during his absence. The same committee recommended that no change be made in the specifications of the smokestack to be built at the Lowell school as suggested by the contractors, the Slipp-Gruenhagen company, who had advised the construction of a cement and brick stack instead of a steel one. The same committee reported that the board of education still owned two lots in West Brainerd and that lots around them were selling from \$10 to \$12 each. The report on all three matters was on motion adopted and placed on file.

Reports from the janitors of the various buildings on the amount of fuel used, were received and the secretary directed to tabulate them for the instruction of the fuel committee.

The applications of the janitors of the various school buildings were presented reappointment. They were all referred to the committee on janitors. This committee reported recommending the rehiring of all the janitors at the present salary. Mr. Ilse asked for an increase from \$55 to \$65 for Mr. Thayer, janitor at the Lowell school, because of the fact that a high pressure steam plant was to be put in there. After considerable discussion it was decided to grant the increase to \$60, and the report of the committee with that modification, and a notation that the janitor of the Mill school should be hired but for the nine months of the school year, the report was accepted.

Mr. LaBar brought up the matter of tornado and hail insurance, which had been left without action at the last meeting of the board. There was considerable discussion Messrs. LaBar, Wise, Molsted and others expressing belief that the matter should be acted upon at once, while Mr. Congdon opposed, expressing belief that the board did not have the money to spare and could not afford to take out the insurance. The committee on insurance was finally instructed to place \$3,000 of such insurance, \$500 on each of the other buildings and \$1,000 on the Washington building if this could be done, but if not less than \$1,000 could be taken on each building to take that.

An application was presented from Martin Swanson, janitor at the Washington school, asking for a ten days leave of absence. After considerable discussion Mr. Wise moved that each janitor be given a week off on pay, the janitor officer being retained to look after the various buildings during the absence of the janitors, they to take their vacations at the time assigned by the committee on buildings. Mr. LaBar suggested that the other janitors could look after the buildings from which the janitor was absent and save the expense of an extra man and Mr. Wise changed his motion to that effect and it was passed.

Mr. Ilse suggested that order books should be procured and furnished to the proper committees and the superintendent and that no supplies of any kind should be purchased except in accordance with a written order. The secretary, on motion of Mr. Wise was instructed to order 1,000 orders, with carbon duplicates, bound in books of 100 each.

Mr. Johnson stated that the building committee had not been able to inspect the various buildings as to the necessary repairs to be made during the vacation and asked if the committee should be given power to act. It was

decided, however, that the committee should make an investigation of the repairs needed then have a special meeting of the board called to act upon their report.

A suggestion from members of the commercial club that the janitors' families should be removed from the buildings was presented to the board by Mr. LaBar and the secretary was requested to answer the same saying that the board did not at the present time see its way clear to making any change.

The quarterly report of the treasurer of the funds of the district and of the sinking fund were received and placed on file.

After allowing a number of bills the board adjourned.

THEY WON'T WALK

Fred P. Bane Compelled to Abandon His Contemplated Pedestrian Trip to the Coast

Minneapolis Journal: Long distance pedestrianism is not rampant in Minnesota, thinks Fred P. Bane of Brainerd. Mr. Bane wanted to organize a walking party from Minnesota to Seattle. The more he thought about it, the better it seemed.

Mr. Bane advertised. "Wanted, immediately," he paid for, at so much the word, "several ladies and gentlemen to join me in a pedestrian trip to Seattle. Answer quick."

They didn't answer quick. In fact, they didn't seem inclined to answer at all. A young woman living on Ninth St. S. Minneapolis, finally did write and asked Mr. Bane about it, and in reply Mr. Bane observed, sadly, that her's was the second letter he had received. The other, he said, was also a Minneapolis woman, but she wouldn't go unless a large party could be made up, "and this," writes Mr. Bane, "seems impossible to do."

Mr. Bane says, however, that he is still ready to start.

MUSIC AND DRAMA

At the Unique

A good, long laugh is in store for you who have not seen "Tommy's Own Invention" at the Unique. Tommy uses the wash tub as the body for an automobile, imagine the fun, after Tommy is caught—but not until he creates all kinds of funny scenes. Don't miss it—its good. It is not necessary to travel that one may learn the customs and habits of the old world now that moving pictures are so perfect. See for instance the number, "Summer Recreation for the School Children of Paris," then you will be pleased for the subject shows quite clearly how well the children of that crowded city are handled through the warm summer months. The stirring drama, "Where There's a Will There's a Way," has many admirers as the subject deals squarely with every day life. Miss Graham never disappoints in her illustrated songs and solo work and daily gains in popularity. Miss Witham the pianist, entertains with the latest song hits along instrumental lines, and taken all together the Unique is a splendid place of entertainment. The above program is for tonight and Thursday.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. A SUICIDE

Resident of Oak Lawn Committed Suicide by Hanging Tuesday Morning

ILL HEALTH WAS THE CAUSE

Deceased Had Been in Poor Health for Several Years and was Despondent

Joseph Vanek, a well known resident of Oak Lawn committed suicide Tuesday morning by hanging himself. He had been in poor health for some years and had become despondent thereby. The funeral will be held from the Presbyterian church Thursday afternoon at 3 p. m., followed by interment in Evergreen cemetery. The deceased was 62 years of age and leaves a widow and several grown sons and daughters.

He went to the barn taking a rope, tied one end around his neck and the other to a harness peg. Then he squatted down so as to throw his weight onto the rope slowly strangling himself. He was found by his daughter when she went to call him for breakfast. He had been despondent and queer for a long time and had repeatedly threatened suicide in the past five years. An unbalanced mind is the only known cause for his rash act.

MAKES GOOD HEALTHY FLESH

H. P. Dunn Offers to Pay for Samose if it Fails

Begin the use of Samose today, and you will soon notice a gain in good, healthy flesh. To all who are thin, weak and run down, this remarkable flesh-forming food promises plump, rosy, perfect health, vigor and vitality. Most people eat enough to become fat; the trouble is not lack of food, but lack of assimilative power.

Samose mingle with the food that is eaten, so that it is assimilated by the blood, and builds up pleasing plumpness and good healthy flesh. Those who use Samose for a week or ten days will soon notice a gain in weight and an improvement in general strength and health.

Put good, solid flesh on your bones, and you will be strong and well. In no other way can this be done than by the use of Samose. It gives plumpness and physical grace to the thin and scrawny, and will make you bright, rosy and morally fat.

Samose is in tablet form, pleasant to take, and is sold by one of the most reputable drug stores in Brainerd.

H. P. Dunn, under his personal guarantee to refund the money if it does not give satisfaction.

McCulloch-Miller

A very pleasant home wedding occurred at the residence of Mr. and Mrs. Geo. McCulloch in Oak Lawn, Tuesday evening, June 8, 1909, when their only daughter, Miss Florence Norman McCulloch, became the wife of Mr. Ralph D. Miller, of Staples. The house was handsomely decorated in green and white, the bridal party standing in a bower of lilacs and smilax. The ceremony was performed at 8:30 o'clock by Rev. W. J. Lowrie, pastor of the First Presbyterian church of Brainerd, of which the bride is a member. The bride was beautifully gowned in white Messeline silk and carried bride's roses. She was supported by Miss May Paine, who wore a gown of cream messeline silk and carried pink carnations. After the ceremony the relatives and intimate friends present, to the number of about 20, sat down to a sumptuous wedding supper, the young ladies of the Sunday school class in the Presbyterian Sunday school, which the bride has taught for the past four years, assisting in the serving. The young couple will take no wedding trip, but will be at home at Staples after July 1st. The out of town guests present were Mrs. H. C. Miller, of Staples, mother of the groom, Mr. and Mrs. Clyde Miller, of Staples, brother and sister-in-law of the groom, and Lawrence McCulloch, of Staples, brother of the bride. Both contracting parties are well known here and a host of friends will join in wishing them all the good things in life.

Coenen-Falkenreck

Miss Rose Susan Coenen and Mr. Charles John Falkenreck, both of Brainerd were united in bonds of holy matrimony at St. Francis Catholic church at 8:30 this morning. There will be a reception given to them at the home of the bride's parents, Mr. and Mrs. Charles Coenen, 702 South Seventh street, this evening from 8 p. m. to 10 p. m. Many friends will extend hearty congratulations to the happy couple.

Mooney-McCarville

Miss Alice Mooney, of Brainerd and Mr. F. J. McCarville, of Deerwood, were united in matrimony by Rev. J. J. O'Mahoney at St. Francis Catholic church Tuesday evening, June 8, 1909, and left on the early train this morning for the twin cities. From their they will go to Seattle to take in the Alaska-Yukon exposition and will be absent two or three months. On their return they will make their future home in Deerwood. The bride is the popular daughter of Mr. and Mrs. Thomas Mooney, of East Brainerd and the groom is the son of Mr. and Mrs. James McCarville, of Deerwood, and a nephew of former Chief of Police McGivern. The young people have the best wishes of a host of friends here and at Deerwood.

Cured Hemorrhages of the Lungs

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. H. P. Dunn. m w f

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. H. P. Dunn. m w f

RAILROAD NEWS

Northern Pacific to Spend \$10,000,000

St. Paul, Minn., June 9.—A two-year campaign, involving an expenditure of \$10,000,000, has been initiated by the Northern Pacific railway, according to St. Paul contractors, to reduce grades and perfect branch lines of the road in North Dakota and Montana, where the competition of the St. Paul railroad's Pacific coast extension will be most encountered.

This work has already commenced at various points along the main line of the Northern Pacific and contracts for several very large projects are already in the hands of the general contractors of the road.

A work still in the hands of the general contractors provides for a complete regrading of the main line of the road between Mandan, N. D., and Glendive, Mont., a distance of 207 miles.

This section of the road is now operated with a grade of 2 per cent. The grade will be changed throughout to a water level.

Similar regradings will be made in Montana. There will be several perfectings of the main line grade in the Missoula division of the road.

Delaware's Circular Boundary.

The northern boundary line of Delaware is circular because the charter given to Penn states that Pennsylvania was to be "bounded on the east by the Delaware river from twelve miles distant north of Newcastle town until the three and fortieth degree of north latitude" and that the southern boundary was to be "a circle drawn at twelve miles distant from the town of Newcastle northward and westward until the fortieth degree of north latitude and then by a straight line westward." This makes a circular boundary for northern Delaware unavoidable, and the facts above set forth explain a geographical curiosity that has puzzled many students.

Lorimer, the New Illinois Senator

Former Street Car Conductor,
Who Got His Start in Politics by
Organizing His Craft, Is Known
as the "Blond Boss."

Father of a Ship Canal From Chi-
cago to the Gulf — Breadwinner
From an Early Age — Good Mixer
and Popular — Loyal to Friends

By JAMES A. EDGERTON.

THE main facts about William Lorimer, the new senator from Illinois, are that he was born in England; that he is forty-eight years old; that he came to the United States in childhood; that his father, who was a minister, died when the lad was ten years old; that from then on he has been a breadwinner; that he had little or no schooling; that he sold papers, blacked boots, wheeled salt in the packing houses and was a horse car conductor; that he became a machine politician and is now known as the "blond boss;" that he has been widely and vehemently denounced as being a representative of the vicious elements and "the interests;" that nevertheless his private life is notably clean and his family life ideal; that he does not smoke, drink or swear; that he has eight children, to whom he is devoted; that he is a large man, serene, unruffled, a good mixer and popular; that he never goes back on a friend; that he has been in congress seven terms; that he is known as the "father of the deep waterway project" of a ship canal from the great lakes to the gulf; that he is a fair speaker, but prefers to work on the quiet, and that his election as senator came as a surprise at the end of the longest deadlock in the history of Illinois.

This is but a skeleton outline, but it gives an idea of the man. His career is not commonplace or usual by any means, and perhaps the strangest thing in it is that he, a party boss, was elected to the senate by a combination of Republicans and Democrats. Another striking feature about Lorimer is that several times his enemies have gleefully proclaimed that the "blond boss" was down and out. Yet

traitor, and his pursuit is relentless. The foes of ex-Senator Hopkins explain the downfall of that gentleman as an effect of that very cause. They aver that it was Lorimer who made Hopkins senator in the first place, and when Lorimer was trying to nominate Yates over Deneen they accused Hopkins of trying to carry water on both shoulders. These are the charges, and whether true or not, the result is the same. Hopkins is out, and Lorimer is in. The "blond boss" turned the trick in the face of a plurality for the former senator in the primaries.

Perhaps the Democratic vote for Lorimer is explained by that very fight for governor, in which it is charged that after Deneen was nominated Lorimer threw his forces to Adlai Stevenson, the Democratic candidate, and ran him a hundred thousand or so ahead of his ticket. Afterward an anti-Deneen bipartisan combination organized the legislature, and Lorimer is given the credit for that. These intricacies of state politics have peculiar twists. After all the battle between the new senator and the governor, both Chicago men, by the way, and former friends, one of Lorimer's first moves after his election was to make a call at the executive mansion, and the interview between the arch enemies was so cordial that the Chicago papers at once figured out an offensive and defensive alliance.

Waving His Candidate In.

One of the most spectacular political stunts ever pulled off by Lorimer was the nomination of Dick Yates for governor nearly a decade ago. It was on the third ballot when the cause that the Chicago man espoused seemed lost and, according to report, another man

which was in the interest of some Chicago corporation. Billy Lorimer is of Chicago and for Chicago.

The Ship Canal.

Of all the things Lorimer has done or attempted to do for his own town the deep waterway project is the most momentous. When he first began the advocacy of this gigantic undertaking little attention was paid to him even in his own city. Gradually, however, Chicago began to awaken until today the ship canal from the lakes to the gulf is about the liveliest wire in the middle west. After fighting for it through many congresses and on the stump all over Illinois the new senator had the pleasure of seeing a great convention meet in Chicago in its behalf, at which both President Taft and William J. Bryan spoke in its favor. Now that he is in the senate he will make a still harder fight for his pet project and says that he will carry it through. For his advocacy of this one beneficent enterprise much can be forgiven him. There are many exam-

ples of poetic justice in the world, and not the least of these is the general belief in Illinois that it was his championship of the deep waterway that was the deciding factor in gaining for Billy Lorimer the senatorship. It would be an interesting psychological study to know whether he had such a result in view when he began the seemingly hopeless fight. Why not give him the benefit of the doubt and believe that he was actuated by public spirit rather than private ambition? Or perhaps both factors entered, as they do in most men. In writing of many men I find that there is something good in all, just as there are other things to be deplored. In striking a balance between the two sometimes the scale tips one way, sometimes the other. In Lorimer's case that ship canal when it is carried through, as it certainly will be, will redeem much and blot out much. It will be a monument ever enduring, one of which the greatest and best might be proud.

In the end we are judged by our most conspicuous deed, whether it be of good or of evil. The deep waterway will certainly be the most conspicuous deed of Senator William Lorimer. Who can tell but that it may even swallow up his reputation as a "blond boss?"

Getting at the Real Man.

Fame plays queer tricks on us all. And we who most abhor the political methods of men of the Lorimer type are forced to applaud efforts for the public good such as those shown in his long battle for this enterprise that is to bless the future. I am not seeking to excuse Lorimer. I am only seeking to do him justice. A character sketch that shows personal or partisan bias is not worthy of the name. The effort should be to get at the real man and set him forth as he is—no more, no less. Kindliness and sympathy go a long way in getting at another's viewpoint and angle of vision. Until that viewpoint is gained a fair estimate cannot be made. I am frank to say that my first feeling as to Lorimer was one of repugnance. Looked at more closely, there is gold beneath the dross. This is not said of him because he is a United States senator. It would be just as true if he were still a west side street car conductor, although there would be no palpitating interest in him as such. These things can be said of him and for him: He has made his own way; he never loses his temper; in his home he is what every American man should be; his word never goes to protest; he sticks by his friends even though they go to jail; he is constructive and for his own town, and he has fought through good and evil report for at least one public work that will benefit mankind.

Such things weigh. They contain substance and have meaning. Perhaps I have omitted the one element that counts for most in the world, though it may be rated at more than its worth—Mr. Lorimer has plucked the golden apple of success. That is the credit side of the account, and why cast up the debit? The papers have been full of it for years, and it is generally known of men.

No sketch of Senator Lorimer would be complete that did not include Mrs. Lorimer. She was born in Canada, and he married her when he was a street car conductor. The same loyalty that has held him to his friends and to his city has welded him to his home. In the life of this man there is none of the sickening story of the successful man outgrowing the partner of his humble beginnings.

In personal appearance the "blond boss" is like his name—auburn of hair, red of mustache, a good fellow and as democratic as sunshine. Here is hoping that his most cherished ambition may be fulfilled and that he may live to build the Chicago ship canal.

CASE SETTLED OUT OF COURT

Suit for Thirty Million Dollars Is Terminated.

WAS ON TRIAL TWO WEEKS

Pennsylvania Sugar Refining Company Sought to Obtain Heavy Damages From the American Sugar Refining Company Because It Alleged the Trust Had Driven It Out of Business. Terms of Settlement Unknown.

New York, June 9.—The \$30,000,000 suit of the Pennsylvania Sugar Refining company against the American Sugar Refining company, the so-called trust, has been settled out of court. The case had been on trial for two weeks in the United States district court. The terms of the settlement were not made public and counsel for both plaintiff and defendant declined to discuss the agreement other than to say that an understanding had been reached and that a statement would perhaps soon be forthcoming.

The suit was one of those familiar yet complicated legal moves instituted every now and then by a smaller concern against an alleged monopoly, charging in effect that it had been driven out of business. In this case witnesses testified that Adolph Segal of Philadelphia, controlling power of the Pennsylvania Sugar Refining company, borrowed from Gustav A. Kissel \$1,250,000, for which he gave as security 26,000 shares of the Pennsylvania Sugar Refining company, together with a voting trust certificate for the same, which was to run until the payment of the loan.

With the power thus conferred upon him, Kissel, it was alleged, installed himself and three of his clerks as directors of the independent sugar company and having control of the board of directors he passed a remarkable resolution which declared that the then almost completed refinery, which is said to be one of the most economical ever built, should not be opened or operated until further orders of the board.

That resolution, the plaintiff contended, was drafted by John E. Parsons, acting as counsel for the sugar trust, for whom it showed Gustav A. Kissel, the leader, also was an agent.

The details of the settlement will not be made public until after ratification by the Pennsylvania court that appointed George H. Earle, Jr., receiver of the Pennsylvania Sugar Refining company. If such ratification is not made the case will have to be retried.

CANINE MARATHON RACE.

Novel Feature of Queensboro Bridge Carnival at New York.

One of the novel features of the Queensboro bridge carnival in New York during the week of June 12-19 will be a canine Marathon race. This is the first time that this will be tried and will be open to trained dogs only.

The affair will be under the direction of Philo G. Andersen, the well known dog fancier of Union Course, N. Y. The race will be from the Manhattan end of the Queensboro bridge to some point on the Hoffman boulevard near Glendale, N. Y. The lists are open to field dogs and hounds. There will be several contests for trained dogs. There will be also a race for the booby prize by dogs not thoroughly trained.

The dogs will have blankets with numbers so that they can be distinguished in the race. At first the committee was doubtful about the possibility of carrying on such a race, but several experts on dogs have satisfied it that the thing can be accomplished. In speaking of the matter Mr. Andersen said:

"Dogs can be trained to race as well as horses, and more so, because they do not need any jockeying. Some of the most exciting coursing events of this kind have been held right on Long Island, and at one time a good deal of money has been put up on the contestants. It will be great sports to see from 100 to 150 dogs go streaking across the big bridge.

"The races can be made more exciting by interspersing them with hurdle and other obstructions. To see these dogs leaping fences and ropes would add to the excitement and novelty of the affair. This race will interest the owners of all thoroughbreds and especially the owners of field dogs.

"I have sent notices to about 350 owners, and all of them have signified their willingness to enter the races. It will be a question of selection. Each race should be limited to about fifty dogs at the maximum. If there are more than that number the dogs are apt to run in packs, and that would spoil the race. Owners of dogs as far west as Los Angeles have signified their intention of entering their animals."

Another Cloudburst in Iowa.

Des Moines, Ia., June 9.—A second cloudburst destroyed the repair work along the line of the Chicago Great Western railroad between Shannon City and Benton, Ia. For miles the roadbed is a broken mass of twisted iron.

WINNER OF BERMUDA RACE

Appears to Be the Schooner Margaret of New York.

Hamilton, Bermuda, June 9.—So far as can be figured at present, the schooner Margaret, owned by George S. Runk of New York, has won the sailing race from New York to Bermuda by about four and a half hours. Three of the yachts crossed the finish mark off St. David's Head in one of the most remarkable contests that has ever taken place on the sea. Less than two minutes separated the schooner America, owned by Dr. W. L. Baumbach of Chicago, and the Margaret. The former was first over, but as the Margaret had an allowance of 4 hours and 30 minutes, and finished right on the Amoria's heels, the Margaret proved the winner on her allowance. The schooner Crusader II, owned by Edwin Parmer of the Atlantic Yacht club, came over the line 38 minutes and 55 seconds after the Margaret.

The start was made from Gravesend bay at 10 a. m., Saturday.

FISHER WINS THE TROPHY

Indianapolis Aeronaut Captures Prize That He Had Offered.

Indianapolis, June 9.—Carl G. Fisher of Indianapolis, pilot of the balloon Indiana in the national balloon race, has won the trophy which he offered to the aeronaut staying longest in the air. Mr. Fisher said over the telephone Monday night about seven miles from Tennessee City, Tenn. According to this information the balloon has been in the air 48 hours since its flight from the motor speedway here last Saturday afternoon. Mr. Fisher said the Indiana had made two stops, but in neither case had touched the ground.

The balloon University City has apparently won the distance contest, having traveled about 375 miles, while the Indiana traveled but 230 miles.

Missionaries Meet.

Clifton Springs, N. Y., June 9.—The opening meeting of the twenty-sixth annual conference of the International Missionary Union was called to order in the Sanatorium Tabernacle here by the Rev. J. Thompson Cole of Japan. One hundred and five members of the union are in attendance.

Killed by Flywheel.

Minneapolis, June 9.—Charles J. Olson, thirty-five years old, a millwright employed in the Pillsbury-Washburn "B" mill, was instantly killed and A. J. Swanson, a fellow workman, was seriously injured as the result of being caught in a flywheel.

Pay As You Go.

If You Don't Live Right You Will Lose Your Good Health.

There are certain things which men do which are thought to be harmful. There are excesses of feeding, and drinking, and dressing, and playing. You may not believe you are paying as you go—paying in loss of health—but you are and soon your cheeks fade and your bright eyes are dull, your sweet breath of youth is tainted, your soft, smooth skin, rough and dry. Nature is collecting her due—you are paying as you go.

Take account of yourself. Live right, breathe right, think right, eat right. You owe it to yourself and the world to do your work with your utmost capacity. You can't do it on or with a sour stomach, impure blood or tired brain. Eat right and you'll sleep right. Do both right and you'll succeed largely. Work right and you'll succeed largely. Meats and rich foods do not start the day well. Make your breakfast of E-C Corn Flakes or Egg-O-See. Wheat Flakes—always ready to serve, easy to digest, ample in muscle and nerve building, sufficient in vitalizing force. Remember it's the wonderful Egg-O-See process that makes them so good to eat.

Papa—Nurse nothing! What he needs is a night watchman.

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is easier than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break up these early colds. That's surely better. That's why they are called Preventics. Preventics are little Candy Cold Cures. No Quinine, no phos, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in boxes for the pocket, also in 25¢ boxes of 48 Preventics. Insist on your druggists giving you

No Pain with Red Blood

You can get your blood right by using Dr. A. W. Chase's Nerve Pills. Rheumatism and diseases of the nerves are closely allied—both are due to thin, watery and impure blood.

Have you ever noticed that it is when you are tired, weak, worn out and exhausted that the rheumatism gives you trouble.

Well, if your blood were analyzed at such times it would be found lacking in just such elements as are contained in Dr. A. W. Chase's Nerve Pills. Because this great restorative actually forms rich, healthful blood it positively cures rheumatism.

Mr. JOHN GERHART, South Main St. Orville, Ohio, writes—"One of my family got run down in health and strength and suffered a great deal from rheumatism. He used Dr. A. W. Chase's Nerve Pills with splendid results. The rheumatism is all gone, strength good and nerves steady. We gladly recommend so excellent a medicine."

WILLIAM LORIMER, UNITED STATES SENATOR FROM ILLINOIS

at the next turn of the wheel he won greater victories than ever. His present triumph is a case in point. He had fought Deneen both in the primaries and at the polls, and Deneen gave him a drubbing each time. "That is the end of Billy Lorimer," yelled everybody. And now look at him—one minute dumped in the gutter and left at the rear and the next on the front seat of the band wagon at the head of the procession!

Serene and Canny.

Lorimer in his acceptance speech blandly and benevolently handed out bouquets to everybody, even his foes; looked as innocent and cherubic as a blond boss could; said he was a Republican, but loved the Democrats who had jumped the fence in his behalf; talked for tariff revision downward because it had been promised in the platform; spoke a good word—two of them, in fact—for his deep waterway scheme and looked so serene that no one would have dreamed that he had just pulled off a deal without a parallel in the history of American politics. For an ex-street car conductor who had got his first start in politics by organizing his craft it was quite a piece of generalship. Lorimer is distinctively a politician. The convolutions in his gray matter are not in vain. They stand for something. He is canny, as becomes one of Scotch blood, which he is, although born in Manchester. He plays the game, and, win or lose, he is not a quitter. His loyalty to his friends is both his strength and his weakness. So long as they stay by him he stays by them, no matter what else they may do. This had laid him open to many attacks. On the other hand, he has a long memory for his enemies. Let a friend double cross him or play the

was actually nominated. Suddenly Lorimer appeared on the stage waving a Yates banner. He kept it up until the convention was stamped, and in the confusion the third ballot was never counted. A fourth roll call was ordered, and the day was won for Yates.

The act by which the new senator first forced himself into general notice was almost as spectacular. It was in 1892, and he was a delegate to the Minneapolis convention. Illinois was for the renomination of Harrison, but Lorimer would not be bound by the delegation and voted for James G. Blaine. As Blaine had hosts of friends in Chicago, the rising young politician lost nothing by the move.

A third incident shows a streak of independence in Lorimer that would not be suspected from his reputation as a machine man. It was in the days just after the Maine had been blown up in Havana harbor and when Tom Reed and the administration were trying to prevent or at least delay a declaration of war. Lorimer served notice on Reed that he would lead a revolt, which he did and forced action. He pulled off a similar coup in his salad days as a kid congressman. Though he was supposed to keep silent, he made so warm a fight for the Chicago public building bill that, in spite of everybody else who was looking for pork, the Windy City won the day. It must be said for him that he has always stood up for Chicago. Much of the criticism of him has been due to his championship of his friends and of Chicago interests. When Roosevelt led the fight for meat inspection it was Lorimer who rushed to the support of the packing houses. Only recently the Michigan delegation was in high dudgeon because Lorimer had fathered a scheme at Sault Ste. Marie
